

URVA YOGESHKUMAR GANDHI

B.Tech. - Computer Science & Engineering

Ph: +91-8866241204

Email: 23bce078@nirmauni.ac.in

Ahmedabad, Gujarat, India - 380051

LinkedIn: <https://www.linkedin.com/in/urva-gandhi>

PROFESSIONAL SUMMARY

Final year CS undergraduate (Minor: Adaptive AI, CGPA: 8.83) with production-level Java backend and full-stack development with hands-on AI/ML engineering experience in multi-agent systems, NLP, and predictive ML. Shipped multi-module containerized platforms with microservices-ready architecture and enterprise-grade security. 3x hackathon winner.

KEY EXPERTISE

Java Spring Boot Spring Security REST APIs Data Structures & Algorithms ReactJS Next.js PostgreSQL MongoDB MySQL Docker Git Full Stack Development Software Engineer Machine Learning Artificial Intelligence NLP

EDUCATION

Institute of technology, Nirma University

2023 - 2027

B.Tech. - Computer Science & Engineering | CGPA: 8.83 / 10

Advait Vidyaniketan, Bharuch

2023

12th | GSEB | Percentage: 80.92 / 100

Swami Vivekanand School, Ankleshwar

2021

10th | GSEB | Percentage: 88.33 / 100

INTERSHIPS

Kautilyam | IT Product & Services

04 May, 2026 - 27 Jun, 2026

Backend Developer Intern

Key Skills:

ReactJS Spring Boot Core Java Data Structure and Algorithm Frontend Backend Software Engineering

Worked as a Software Engineer Intern (Backend Development) at Kautilyam, contributing to the design, development, and maintenance of scalable web applications.

- Implemented backend services, business logic, data processing workflows, and database integrations.
- Collaborated with frontend developers and team members to deliver end-to-end software solutions.
- Worked with MongoDB databases for efficient data storage, retrieval, optimization, and management.
- Participated in software development lifecycle (SDLC) activities, including requirement analysis, development, testing, and deployment.
- Utilized Git for version control, code collaboration, and maintaining development workflows.
- Contributed to code reviews and followed software engineering best practices to ensure clean, maintainable, and production-ready code.
- Gained hands-on experience in building real-world software systems, backend architecture, and deployment processes in a professional development environment.

PROJECTS

CoinTrack – Multi-Broker Finance Platform

07 Aug, 2025 - 27 May, 2026

Mentor: Self Project | Team Size: 1

Key Skills: Java Spring Boot Spring Security MongoDB Docker REST API JWT AES Encryption

Project Link: <https://github.com/urvagandhi/cointrack>

- Designed and shipped a multi-broker investment platform with 45+ REST endpoints and 8 modules using hexagonal architecture to aggregate Zerodha, Angel One, and Upstox portfolios into a unified real-time P&L dashboard with 15-minute background synchronization and Dockerized deployment.
- Engineered an alternative asset management engine supporting Mutual Funds, Gold/Silver, FD, PPF, and EPF by integrating real-time pricing APIs and market-holiday web scraping for accurate live NAV calculations and portfolio analytics.
- Implemented an enterprise-grade security stack featuring Google OAuth 2.0 SSO, mandatory TOTP-based 2FA, AES-256-GCM encryption, JWT authentication with refresh-token rotation, Caffeine-based token blacklisting, and Bucket4j rate limiting.

FleetFlow – Fleet & Logistics Management System

21 Mar, 2026 - 27 Mar, 2026

Mentor: Manushi Shah | **Team Size:** 4

Key Skills:

ReactJS TypeScript ExpressJS PostgreSQL Prisma ORM Socket.IO Docker REST API Hackathon Project

Project Link: <https://github.com/urvagandhi/Odoo-Hackathon-26>

Developed a full-stack fleet and logistics management platform to streamline vehicle operations, shipment tracking, and workflow management. Implemented 30+ APIs, role-based access control, audit logging, and real-time updates using Socket.IO. Designed scalable database schemas using PostgreSQL and Prisma ORM. Built responsive user interfaces with React and integrated backend services for efficient logistics management. Secured 2nd Runner-Up position at the Odoo x Gujarat Vidyapith Hackathon 2026.

Agent Paperpal – Agentic AI Manuscript Formatter

05 Mar, 2026 - 07 Mar, 2026

Mentor: Fenil Ramoliya, Riddhi Shah | **Team Size:** 5

Key Skills: Python CrewAI ReactJS Google Gemini Office.js AI Agents NLP Hackathon Project

Project Link: <https://github.com/urvagandhi/TBD>

Led the development of an agentic AI platform that automates manuscript formatting and compliance checking for research papers. Built a multi-agent workflow capable of validating and formatting documents according to APA, IEEE, Springer, Vancouver, and Chicago standards. Developed a React web application and Microsoft Word Add-in for seamless user interaction. Implemented automated compliance analysis and scoring mechanisms to assist researchers in preparing publication-ready manuscripts. Achieved Track Runner-Up at HACKaMINeD 2026 among 400+ teams.

RWEsearch – Healthcare Analytics Platform

19 Aug, 2025 - 29 Sep, 2025

Mentor: Meghanshu Bhatia | **Team Size:** 5

Key Skills: Python Scikit-learn XGBoost TensorFlow Machine Learning Data Analytics Hackathon Project

Project Link: <https://github.com/urvagandhi/RWEsearch-Hackathon>

Developed a healthcare analytics platform for predicting hospital readmissions across multiple prediction horizons. Built machine learning pipelines using Logistic Regression, Random Forest, XGBoost, and Deep Learning models. Designed a Smart Model Loader to enable comparative model evaluation and selection. Created an interactive Streamlit dashboard for visualization, analytics, and prediction management. Won 1st Place at the Health AI Innovation Hackathon 2025 among 140+ participating teams.

ACHIEVEMENTS

- 1st Place – RWEsearch & Health AI Innovation Hackathon 2025 among 140+ participating teams.
- Track Runner-Up – HACKaMINeD 2026 among 400+ teams and 2300+ registrations.
- 2nd Runner-Up – Odoo x Gujarat Vidyapith Hackathon 2026.
- Qualified for Round 2 of Adobe India "Connecting the Dots" Hackathon 2025.
- Solved 300+ DSA problems on LeetCode with Contest Rating 1637 (Top 19.46%)

CO-CURRICULAR ACTIVITIES

- Active participant in national-level hackathons and software development competitions.
- Developed and presented innovative AI, healthcare analytics, and enterprise software solutions in team-based competitions.
- Engaged in collaborative software development, technical presentations, and project demonstrations.

EXTRA CURRICULAR ACTIVITIES

- Freelance Full Stack Developer working on real-world web application development projects.
- Continuous self-learning through technical courses, documentation, and hands-on project building.
